“ *I remember back in 1977 or 1978, I flew out to California to help my sister drive back to Missouri because her and her husband split up. That is one of the greatest moments I remember with my sister. I love Susan 🌹🙏🌸🌸 R. I. P.*

“ I remember when I for met Susan I was coming in to work and she was sitting outside smoking like she does everyday and she would stop me before I would go into the door and just start a whole conversation with me it would just be a random conversation and I would almost be late for work because of are conversations and then she would ask me to go smoke with her and I would love smoking with her because she was just a great person to be around she was always concerned about everybody and what was going on she was just a caring person and she was loved and will be missed

That was my sister. I Hadn't seen her for several years. I feel very bad because I wasn't able to attend her service's. Thank you for saying nice things about me sister. I loved my sister very much, and I also love the rest of my sister's. I was just wanting to apologize for my continue absence to my family. Please forgive me to the ones who are still alive, I love you all as well.

“ I can remember the first day that I met Susan, I had just started work at Lincoln Co Nursing and Rehab and I was very nervous about the job because I didn't know anyone and at this time she took me under her wing. She was the very first person to tell me that I needed to continue my career in nursing because I had a heart of gold and cared about everyone. She always had a smile on her face and hardly ever had a bad day. I truly miss her greeting me at the door of work in the mornings.
